Appendix 198

INTRODUCTION
1990-1991 PUBLIC LIBRARY DIRECTORY

The 1990-1991 Tennessee Public Library Directory and 1989-1990 Statistical Report replaces the previously-published 1989-1990 Tenessee Public Library Directory and the Tennessee Public Library Statistics annual report.

In the **DIRECTORY** section, the public libraries are listed alphabetically by city with a "see" reference in those instances where the library name is different from the location. Wherever possible, the street address is included. A schedule of each library's hours of operation has also been added.

To more easily locate a particular library, the following aids have been included:

* a map of Tennessee identifying Region locations
* a list of counties served by each Region
* a list of cities with libraries within each county

Libraries under the supervision of the Department of Mental Health/ Retardation, the Department of Correction, and the Department of Youth Development are listed in a separate section as are the State Agency Library/Information Centers.

INTRODUCTION
1989-90 PUBLIC LIBRARY STATISTICS

The 1989-90 public library statistics were collected from each public library in Tennessee on a newly-developed data collection form which is included, with definitions, in the Appendix of this document. The data conforms to the national data format and definitions created by the Federal-State-Cooperative-System (FSCS), a federally-funded program established to collect and publish accurate, consistent and comparable public library statistics from each state.

PART I: FULL SERVICE LIBRARIES

In the first section of Part I, data is reported, alphabetically by city, for each full-service public library in Tennessee. Data for the four metropolitan public libraries (Chattanooga, Knoxville, Memphis, and Nashville) follows the alphabetic listing of the other full-service libraries.

A full-service library is defined in the Tennessee Minimum Standards for Non-Metropolitan Libraries, 1991 meeting the following criteria:

* legally established
* a long-range program
* a written budget that meets maintenance of effort requirements
* open at least 20 hours per week
* 1/2 time paid paraprofessional staff
* a collection with a minimum of 7,500 items
* services that include circulation, interlibrary loan, ready-reference, and access to a catalog of the collection
* a facility with a minimum of 2,000 square feet
* a telephone

A public library in a county with no other public libraries is considered to be a full-service library even if it does not meet all of the above criteria.

The statistics reported for each full-service library include the main library and any branches.

Population figures for the full-service libraries reflect the "Official Public Library Service Area" submitted to each county library board in the Spring of 1991 for review and adoption. These population figures are preliminary and may be revised by action of county library boards. Only full-service public libraries have been assigned an official service area. The total of the population figures for the full-service public libraries equals the total population of the state.

At the end of Part I, composite statistical data for the multi-county regional libraries are reported. The multi-county regional library statistics include regional library data and the data reported by community libraries (libraries which do not meet the standards to be full-service libraries as defined above) and bookmobile stations within the region.

The "State Totals" reported in Part I reflect all public library activity during FY 1989-90.

PART II: ALL LOCALLY FUNDED PUBLIC LIBRARIES BY REGIONAL LOCATION

This section presents the same statistical data presented in Part I in a different format. In this section, the data is arranged by region and, within each region, by county. Complete information is repeated for all full-service libraries and complete information is provided for all community libraries which receive public monies. The circulation of bookmobile stations and the regional library center statistics are also reported. The data pertaining to the community libraries, the bookmobile stations and the regional library centers were presented in a single regional total in Part I.

The information in this section indicates the level of support and use for all libraries, full-service and community, within each county. It also provides region by region totals which will be useful when comparing these figures to statistical data published by the State Library and Archives since 1960, all of which were reported as county or regional totals.

The "State Totals" reported in Part II reflect all public library activity during FY 1989-90 and are identical to the "State Totals" reported at the end of Part I.

If you have any questions about this statistical report, please call or write:

Part VI - Library Service Per Typical Week

49. Public library service hours per typical week (do not count overlapping hours) 47. _____

50. Total attendance in library per typical week 50. _____

51. In-library use of library materials during typical week 51. _____

52. Total reference transactions completed during typical week 52. _____

Part VII - Local Library Service

53. Total circulation transactions 53. _____

54. Total number of programs/presentations made to groups 54. _____

55. Total number of service hours each year (count overlapping hours) 55. _____

Part VIII - Resource Sharing

56. Interlibrary loans received from other libraries and from Area Resource Centers (ARCs) 56. _____

57. Interlibrary loans provided to other libraries 57. _____

Part IX - Facility

58. Total number of square feet in library facility 58. _____

Part X - Miscellaneous Information

59. Does your library have reciprocal borrowing agreements with other libraries. _____ Yes _____ No

If Yes, which libraries?

60. What fee (if any) does your library charge non-residents to use your library?

$_____ Annual per _____ (family/individual/other)

$_____ Other

61. How much did your library spend in communications costs during the report year?

A. Postage $_____

B. Telephone and other telecommunications $_____

62. Do you have an automated circulation system?

_____Yes ____No

If Yes, which system? _____

63. Do you have a public access catalog? _____Yes ____ No

64. Do you use an automated system to produce machine-readable cataloging?

_____Yes ____ No

TENNESSEE PUBLIC LIBRARIES DATA COLLECTION FORM

INSTRUCTIONS AND DEFINITIONS

Part I -- General Information

The information reported in Items 1-11 is used to generate the annual Directory of Regional and Public Libraries of Tennessee, as well as mailing lists used by the State Library and Archives.

1. **Library Director:** The name of the head librarian/director/ administrator appears here.

2. **Name of library:** Give the official name of your library.

3-10. Fill in the blanks with the information requested. Include street address of the library, if different from the mailing address.

7. **Telephone No.:** The phone number which you enter here will be the phone number which appears in the Directory. If your library has several incoming phone lines, you might want to give some consideration to which one you enter here.

9. Use Winter hours.

11. **Library Structure:** If you are an independent library reporting directly to a library board, check 10a. If you are a library system, with a main library and one or more branch libraries, check 11b. and respond to question 12.

12. **The number of branches in the library system:** Branch libraries are auxiliary units which have all of the following: (1) separate quarters; (2) permanent staff; (3) a permanent basic collection of books; and (4) a regular schedule for opening to the public. Branches are administered by the central or main library and do not report directly to a library board.

13. **The number of bookmobiles operated by the library:** A truck or van especially equipped to carry books and other library materials and serve as a traveling branch library is considered to be a bookmobile. Count vehicles, not stops.

14. **Total number of registered borrowers:** Report the number of people who have applied for an received borrowing privileges from your library. Do not include non-residents who pay for library privileges.

Part II -- Library Staff

For Items 15-19, you are asked to report your data in the form of the **full-time equivalent (FTE)**. This is something different from reporting simply the **number** of people employed. One FTE is defined as equal to one employee working 40 hours per week. If an employee works anything less than 40 hours per week, then that employee is working at some fraction of one FTE. Reporting hours worked in terms of FTEs ensures that data from different libraries can be reliably compared. It ensures that everyone is counting the same thing, in the same way. Report staff numbers as of the last day of the fiscal year. Include unfilled positions if a search is currently underway.

15-16. **Total FTE of other employees holding the title of librarian:** A librarian does work that requires professional training and skill in the theoretical or scientific aspects of library work, as distinct from its mechanical or clerical aspect.

Items 15 and 16 draw a distinction between librarians who have a master's degree from an ALA accredited program and librarians who do not.

17. **Total FTE of other paid employees:** Include all paid library employees <u>except</u> custodial, maintenance and security staff.

18. **Total FTE plant operations, security and maintenance staff:** Include all staff <u>paid from the library budget</u> who perform custodial, maintenance or security work.

19. **Total FTE of paid staff:** Report total FTE of paid library employees (Items 15 + 16 + 17 + 18 = 19).

20. **Total number of volunteers (Not FTE):** Count unpaid persons who have given time during the year to the library, including advisory board members, storytellers, book sale personnel, and those who contribute time to operations and/or support. Count individuals, not full-time equivalents.

Part III -- Library Income by Source

The figures reported in Item 23 will be used as one the criteria to determine if your library is meeting the maintenance of effort requirement of the Tennessee Regional Library System. The figure reported in Item 23 must equal or exceed the same figure for the previous fiscal year.

21. **Amount appropriated by county for operating expenses...:** All tax and nontax receipts allocated by the county available for expenditure by the public library. Do not include appropriations for capital items or other one-time expenditures (see Item 24).

22. **Amount appropriated by city for operating expenses...:** All tax and nontax receipts allocated by the community/city available for expenditure by the public library. If more than city appropriates money to support the library, please report the appropriation of each. Do not include appropriations for capital items or other one-time expenditures (see Item 24).

23. **Total Operating Appropriation:** Report total of items 21 and 22. Do not include gifts, donations, fees or fines. These are reported in Item 26.

24. **Total city/county appropriation for one-time expenses or capital items:** Report all city/county monies that are appropriated for special projects or capital improvement here. These funds are not included when determining if the library meets maintenance of effort requirements.

25. **LSCA funds:** Report any LSCA funds received from the State Library and Archives. This includes direct service grants, MURL grants, and all other LSCA allocations. These funds are not included when determining if the library meets maintenance of effort requirements.

26. **Other income:** Report all other income not reported in Items 21-25. Include monetary gifts and donations, interest, fines, and fees. Do not 4include the value of any contributed services or the value or any non-monetary gifts and donations. These funds are not included when determining if the library meets maintenance of effort requirements.

27. **Total other income:** Report total of items 24, 25 and 26.

28. **Total unexpended balance from last fiscal year:** These are the funds your library carried over from the previous fiscal year.

Part IV - Library Expenditures

The figure reported in Item 34 will be used as one of the criteria to determine if your library is meeting the maintenance of effort requirement of the Tennessee Regional System. The figure reported in Item 34 must equal or exceed the same figure for the previous fiscal year.

Section A - Operating Expenditures includes specific items that appear in most library operating budgets.

29. Salaries and wages (excluding plant, security, maintenance staff): This amount should be the salaries and wages for all library staff except as noted above. Include salaries and wages before deductions, but exclude "employee benefits."

30. **Employee benefits (excluding plant, security, maintenance staff):** The benefits outside of salary and wages paid and accruing to employees except as noted above, regardless of whether the benefits or equivalent cash options are available to all employees. Include amounts spent by the reporting unit for direct, paid employee benefits including Social Security, retirement, protection, unemployment compensation, workmen's compensation, tuition, and housing benefits.

32. **Total expenditures on collection:** Include all expenditures for materials purchased or leased for use by the public. Include print materials, microforms, machine-readable materials, audiovisual materials, etc.

33. **All other operating expenditures:** Include all operating expenditures other than those given in Items 31 and 32.

35. **Capital expenditures:** Funds for the acquisition of or additions to fixed assets such as building sites, new buildings and building additions, new equipment (including major computer installations), initial book stock, furnishings for new or expanded building, and new vehicles. Bond funds used for these purposes should also be reported in this category. This excludes replacement and repair of existing furnishings and equipment, regular purchase of materials, and investments for capital appreciation. NOTE: Local accounting practices shall determine whether a specific item is a capital expense or an operating expense regardless of examples in the definitions.

36. **Other one-time expenditures:** Funds expended for the special one-time purchase of non-capital items or funds expended from memorials, gifts and other non-appropriated income. These are non-recurring funds which **WILL NOT** be included in the library budget during the next fiscal year.

Section C - Unexpended Balance and Carryover. Report any unexpended funds remaining in your account(s) at the end of this fiscal year (if there are any), and the amount you will be carrying over into the new fiscal year (if you do carry over any funds). In some cases, both the unexpended balance and the carryover will be equal. In others, because some libraries are required to return any unexpended funds to their funding authority's general account, these figures will be different.

37. **Unexpended balance at end of report year:** Report any unexpended funds.

38. **Amount carried over to next fiscal year:** This final balance is to be carried forward to the next fiscal year. It is this exact figure which should be reported as an opening balance on the statistical report for FY 1990.

Part V - Library Collection

For Items 38-44, you are asked to total your library collection for following:

Books - A nonperiodical printed publication bound in hard or soft cover or in loose-leaf format.

Bound serials - A publication issued in successive parts, usually at regular intervals, and as a rule, intended to be continued indefinitely. Serials include periodicals (magazines), newspapers, annuals (reports, yearbooks, etc.), proceedings, and transactions of societies.

Government documents - A government document is any publication in book, serial, or other form of library material that is published by a government agency, intergovernmental organizations to which governments belong and appoint representatives, such as the United Nations, Organization of American States, etc.

Audio materials - A generic term for material on which sounds (only) are stored (recorded) and that can be reproduced (played back) mechanically or electronically, or both. This includes audiocassettes, audiocartridges, audiodiscs, audioreels, talking books, and other sound recordings.

Video materials - A generic term for material on which pictures, sound, or both are recorded. Electronic playback reproduces pictures, sounds or both using a television receiver or monitor.

Microforms - A photographic reproduction of textual, tabular, or graphic material reduced in size so that it can normally be used only with magnification. The two main types of microforms are microreproductions on transparent material, including roll microfilm, aperture cards, microfiche, and ultrafiche, and reproductions on opaque material. Exclude current serial subscriptions.

Films - The term film is used interchangeably with "motion picture" which is a length of film, with or without recorded sound, bearing a sequence of images that create the illusion of movement when projected in rapid succession (usually 18 or 24 frames per second). Motion pictures are produced in a variety of sizes (8, 16, 35, 55, and 70mm) and a variety of formats (cartridge, cassette, loop, and reel).

Other library materials - Include all materials not already reported.

Current serial subscriptions - Report titles received, both subscription and gift. Do not report number of individual issues. The total number of subscriptions in the library system, including duplicates, should be reported.

47. **Total number of library items added during the year:** except for serials, report the number of physical units added to the library's collections during the year. For serials, simply count the number of **publisher's volumes** received during the year, not the number of individual issues.

48. **Total number of items withdrawn (weeded) during the year:** except for serials, report the number of physical units withdrawn from the library's collection during the year. For serials, simply count the number of **publisher's volumes** held at the end of the year, not the number of individual issues.

Part VI - Library Service Per Typical Week

In Items 49-52: A typical week is a week in which the library is open its regular hours, containing no holidays. It is seven consecutive calendar days, from Sunday through Saturday, or whatever days the library is open during that period.

49. **Public service hours per typical week** - Consider both main library and branches using the following method. If a library is open from 9:00 a.m. to 5:00 p.m. Monday through Friday, it should report 40 hours per week. If several of its branches are also open during those hours, the figure remains 40 hours. Should Branch A also be open one evening from 7:00 to 9:00, the total hours during which users can find service becomes 42. If Branch B is open the same hours on the same evening, the total remains 42, but if it is open 2 hours on another evening, or from 5:00 to 7:00 on the evening when Branch A is open later, the total becomes 44 hours during which users can find service. Include bookmobile public service hours if appropriate.

50. **Total attendance in library per typical week** - Report the total number of persons entering the library per typical week including persons attending activities, meetings, and those persons requiring no staff services. It is recommended that libraries use the method described in Output Measures for Public Libraries, 2nd edition (ALA, 1987). If this is not available, the method described in the first edition of the same title may be used (ALA, 1982).

51. **In-library use of library materials per typical week** - Report the total number of materials utilized in the library, but not checked out. Include reference books, periodicals, book stock, and all other library materials that are used **WITHIN** the library. It is recommended that libraries use the method described in Output Measures for Public Libraries, 2nd edition (ALA, 1987). If this is not available, the method described in the first edition of the same title may be used (ALA, 1982).

52. **Total reference transactions completed per typical week** - Report the total reference transactions per typical week. A reference transaction is an information contact which involves the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by a member of the library staff. The term includes information and referral service. Information sources include printed and non-printed materials, machine-readable data bases (including computer-assisted instruction), catalogs and other holdings records, and, through communication or referral, other libraries and institutions and persons both inside and outside the library. When a staff member utilizes information gained from previous use of information sources to answer a question, report as a reference transaction even if the source is not consulted again during this transaction. Please refer to the Phoenix Public Library's definitions of user assistance statistics when completing this section.

NOTE: It is essential that libraries do not include directional transactions in the report of reference transactions. A directional transaction is an information contact which facilities the use of the library in which the contact occurs and which does NOT involve the knowledge, use, recommendation, interpretation, or instruction in the use of any information sources other than those which describe that library, such as schedules, floor plans, handbooks, and policy statements. Examples of directional transactions include giving instruction or locating, within the library, staff, library users, or physical features, etc., and giving assistance of a non-bibliographic nature with machines.

Part VII - Local Library Service

53. **Total circulation transactions:** The lending of library materials to registered library borrowers for a specified period of time and under clearly identified rules and regulations. This activity includes charging, either manually or electronically, and also renewals, each of which is reported as a circulation transaction. Do not count in-house use of library materials.

54. **Total number of programs/presentations made to groups** - An activity in which a staff member, or person invited by a staff member, provides information to a group. Such

activity must be planned in advance. Information service to groups may be either bibliographic instruction or library use presentations, or it may be cultural, recreational, or educational programs or presentations. Programs or presentations both on and off the library premises are included, as long as they are sponsored by the library. Does not include meetings sponsored by other groups using library meeting rooms.

53. **Total number of service hours each year (count overlapping hours):** Count both main library and branches using the following method. If the main library is open 60 hours per week, report 60 x 52. If 3 branch libraries are also open the same number of hours as the main library (regardless of whether or not all facilities are open at the same time) then the weekly aggregate for the main library plus its branches is 4 x 60 = 240 x 52. If your library operates bookmobiles, treat each of them as if it were a branch.

Part VIII - Resource Sharing

Interlibrary loan occurs when an item of library material, or a copy of the material, is made available by one library to another upon request. It includes both the lending and borrowing. The libraries involved in interlibrary loan are not under the same library administration.

56. **Interlibrary loan received from other libraries:** Report number of actual items received from other libraries and from the Area Resource Centers (ARCs).

57. **Interlibrary loans provided to other libraries:** Report number of actual items provided to other libraries.

Part IX - Facility

58. **Total number of square feet in library facility:** Report the total number of square feet being used for library purposes. In the case of library systems (libraries which checked Item 11b on Page 1 of the data form report the square feet of the main library only. Use the "System Data Form" to report the square feet of each of the branch libraries.
